

LUMINAIRE INTEGRATION

MOUNTING CONSTRUCTION FOR INTEGRATION LED-SPHERE IN LUMINAIRE WITH M10 INNER TUBE CONNECTION

STEP 1

- Disconnect the plug of the cable and feed the wire through the M10 wire pipe.
- Remove the cover of the LED-Sphere.
- Screw the M10x1 wire pipe 9mm into the LED-sphere.

STEP 2

- Carefully tighten the nut. Insert the LED-Sphere into the luminaire using a twisting motion.

OPTIONAL ADDITION

- If the opening of the fixture is exactly 14cm, it is difficult to integrate the LED sphere.
- Remove the two halves and center ring by loosening the screw at the bottom of the sphere.
- After integration into the luminaire, screw the bulb back on in the same way.

LUMINAIRE INTEGRATION

MOUNTING CONSTRUCTION FOR INTEGRATION LED-SPHERE IN LUMINAIRE WITH M10 INNER TUBE CONNECTION

STEP 3

- Place a nut, a small ring and one of the two larger metal rings over the wire.
- Then bring the wire from the LED-sphere to the outside, with a distance of approximately 20 centimeters from the hole.

Note: when the LED-Sphere is carrying the luminaire, make sure the maximum weight of the luminaire is 5 kg.

STEP 4

- Place the second metal ring, the smaller ring and a nut around the wiring on the outside of the luminaire. Carefully tighten the nut.
- Put the strain relief on the wiring and tighten with a twisting motion. When the strain relief is secure, tighten with a flat head screw driver.

STEP 5

- Reconnect the plug with the cable.

Note: ensure the wires remain in their numbered order. The matching numbers can be found in each plug slot. Once secured, fold the plug back and push it until you hear a click.

COMPATIBILITY TABLE

MOUNTING CONSTRUCTION FOR LED-SPHERE

DRIVERS AND ENGINES

	EXTERNAL DRIVER				INTERNAL DRIVER	
	CASAMBI	DMX	DALI	0-10 VOLT	CASAMBI	DMX
